

**Fungicide Resistance Management Strategies**  
**Developed by the CropLife Australia Fungicide Resistance Management Review Group**  
Valid as at 25 June 2015

**Crop(s):** Tomato

**Pest(s):** Powdery Mildew

Resistance Management Strategy for:

**Group 11 + 3 fungicide mixture products**

1. Treat as a **Group 11** fungicide for resistance management purposes.
2. Apply only as a protectant treatment.
3. **Do not** apply more than three sprays, or one third of the total sprays (whichever is the lower).
4. **Do not** apply more than two consecutive sprays.
5. Follow consecutive applications with two applications of fungicides from a different Mode of Action group(s) before using the product again in the current or following season.

**Group 3 (triadimenol) fungicide**

1. Apply before disease becomes established.
2. Tank mix or alternate with a product that has a different Mode of Action.
3. **DO NOT** apply more than 4 sprays of triadimenol per crop.

**Group 7 SDHI (Succinate dehydrogenase inhibitors)**

1. If applying **Group 7** fungicides, **DO NOT** apply more than two consecutive sprays before changing to another group. **DO NOT** apply more than three **Group 7** sprays per season. If consecutive sprays are used, then use the same number of sprays of an alternative group before using another **Group 7**, including sprays in consecutive seasons.

This strategy is a guide only and does not endorse particular products, groups of products or cultural methods in terms of their performance. Always follow the product label for specific use instructions. While all effort has been taken with the information supplied in this document no responsibility, actual or implied, is taken for the day to day accuracy of product or active constituent specific information. Readers should check with the Australian regulator's (APVMA) product database for contemporary information on products and actives. The database can be sourced through [www.apvma.gov.au](http://www.apvma.gov.au). The information given in this strategy is provided in good faith and without any liability for loss or damage suffered as a result of its application and use.

Advice given in this strategy is **valid as at 25 June 2015**. All previous versions of this strategy are now invalid.
