

Fungicide Resistance Management Strategies
Developed by the CropLife Australia Fungicide Resistance Management Review Group
Valid as at 10 June 2016

Crop(s): **Ornamentals**

Pest(s): **Grey Mould**

Resistance Management Strategy for:

Group 2 (Dicarboximide) fungicides; and

Group 9 (Anilinopyrimidine)

1. If three or fewer Botrytis fungicide sprays are applied per crop, use only one spray containing a **Group 9** fungicide. If four to six sprays are applied per crop, use a maximum of two sprays containing **Group 9** fungicides. If seven or more sprays are applied per crop use a maximum of three sprays containing **Group 9** fungicides.

Avoid applying more than two successive sprays of a **Group 9** fungicide, including from the end of one season to the next.

2. **DO NOT** apply more than two consecutive sprays of a **Group 2** fungicide.
