

Fungicide Resistance Management Strategies
 Developed by the CropLife Australia Fungicide Resistance Management Review Group
 Valid as at 10 June 2016

Crop(s): Pulse Crops

Disease (s): Grey Mould (*Botrytis*)

Resistance Management Strategy for

Group 1 (Methyl Benzimidazole Carbamates);

Group 2 (dicarboximide); and

Group M3 (dithiocarbamate) fungicides

1. **DO NOT** apply more than two consecutive **Group 1** sprays, including a seed treatment containing a **Group 1** fungicide. Apply no more than two consecutive sprays of a **Group 1** fungicide alone.
2. **DO NOT** apply more than two **Group 1** treatments (including seed treatment) in a season.
3. **DO NOT** apply more than two **Group 2** sprays in one season. Apply no more than two consecutive sprays of a **Group 2** fungicide.
4. **DO NOT** apply more than two **Group M3** treatments (including seed treatment) in a season. Apply no more than two consecutive sprays of a **Group M3** fungicide alone.
5. It is advisable to rotate groups between seasons.
