

**Fungicide Resistance Management Strategies**  
**Developed by the CropLife Australia Fungicide Resistance Management Review Group**  
**Valid as at 7 June 2017**

---

**Crop(s):**      **Ornamentals**

**Pest(s):**     **Grey Mould**

Resistance Management Strategy for:

**Group 2**        (Dicarboximide) fungicides; and

**Group 9**        (Anilinopyrimidine)

1.      If three or fewer Botrytis fungicide sprays are applied per crop, use only one spray containing a **Group 9** fungicide. If four to six sprays are applied per crop, use a maximum of two sprays containing **Group 9** fungicides. If seven or more sprays are applied per crop use a maximum of three sprays containing **Group 9** fungicides.

Avoid applying more than two successive sprays of a **Group 9** fungicide, including from the end of one season to the next.

2.      **DO NOT** apply more than two consecutive sprays of a **Group 2** fungicide.
