

Crop(s): Strawberries/ornamentals

Mite: Two Spotted Mite

Guidelines:

1. Monitor mite activity and treat infestations before thresholds are reached, i.e. spray earlier rather than later. Seek advice on local threshold levels.
2. **Do not** apply sequential applications of products from any one chemical group.
3. Preferably products with the same Mode of Action should not be used more than twice in a growing season
4. Incorporate the use of predatory mites for the control of this pest wherever possible.

Crop(s): Various

Insect: Western Flower Thrips
